EQUIPMENT MANUFACTURER: AEROMOB HELICOPTER PARTS INDUSTRY

EQUIPMENT NAME: AEROLADDER 145 K01

EQUIPMENT DESCRIPTION: CARBON FIBER LADDER TO ACESSIBILITY OF REDUCED MOBILITY PASSENGERS AND VIP's.

EQUIPMENT PART NUMBER: AM-LDR-145-K01

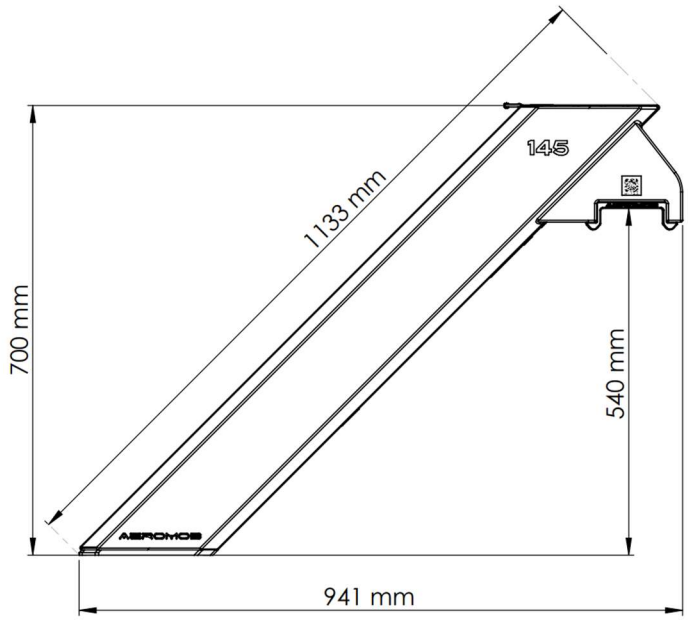

ITEMS OF PART NUMBER: AM-LDR-145-K01

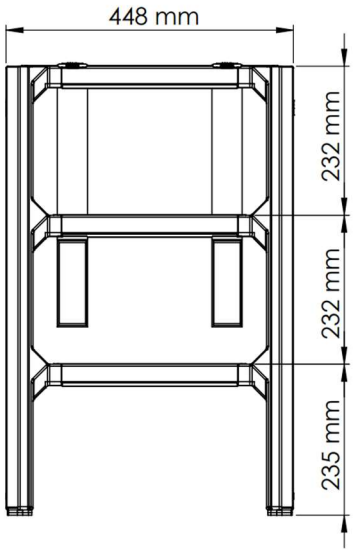

ITEM NUMBER	DESCRIPTION	PART NUMBER	QTY
1	AEROLADDER145	AM-LDR-145-MT1	1
2	CARRYING STRAP	AM-LDR-145-M03	2
3	FLIGHT MANUAL SUPPLEMENT	FMS-AM-LDR-145-K01	1
4	USER MANUAL - MP4	UM-AM-LDR-145-K01	1
5	ILLUSTRATED PARTS CATALOGUE	IPC-AM-LDR-145-K01	1
6	MAINTENANCE MANUAL	MM-AM-LDR-145-K01	1
7	USER VIDEO MANUAL - MP4	UVM-AM-LDR-145-K01	1

INTENTIONALLY LEFT BLANK

GENERAL

- Mono-block construction in flame-retardant carbon fibre
- Total ladder weight: 6lb / 2.8kg

APPROVED USE

The AEROLADDER 145 K01 equipment has the function of an accessibility ladder for boarding and disembarking passengers and is approved for use on the helicopter models: Airbus H145 C2, Airbus H145 D2 and Airbus H145 D3 helicopters, in all their versions, including versions with floats installed.

The AEROLADDER 145 is a highly important equipment for Helicopters with Floats, as it protects the floats against daily knocks when used as boarding and disembarking steps by passengers, which creates a high risk of hidden damage to the safety buoyancy system.

The equipment is approved for passengers up to 287lb / 130kg, with the maximum of 1 (one) passenger at a time and for the exclusive use of boarding and disembarking the aircraft.

If you have SCT nº 2019S10-05 ANAC applied, use the clips fixed to the roof of the luggage compartment to better secure your ladder and thus not leave it loose among the luggage, which allows you not to take up useful space in the luggage compartment of the Airbus H145 and leaves the ladder available as the first item after landing.

The use of this equipment on other helicopter models, people above the approved weight and/or for unapproved functions, is expressly prohibited.

LIMITATIONS

- The equipment is approved for embark and disembark of passengers weighing up to 287lb/130kg, with a maximum of 1 (one) passenger at a time. The ladder is intended for exclusive use for boarding and disembarking the aircraft at walking speed and IS NOT INTENDED FOR JUMPS OR IMPACT.
- The AEROLADDER 145 can be used on paved floors, firm grass or firm hard ground, with installation of the equipment on the aircraft permitted on soils with up to a 5% slope, as long as the lower side rails are fully engaged with the ground. Use on uneven ground that leaves the ladder poorly supported is prohibited and dangerous.
- The use of equipment is safe only if the set is complete and in perfect working order. It is expressly prohibited and dangerous to use the equipment with any part or component missing or using a component that is not part of this set and/or that has not been supplied by the manufacturer. If it is necessary to replace an item or component, consult the Illustrated Parts Catalog - IPC through the link: www.aeromob-industry.com/support-am-ldr-145-k01, or by scanning the QRCODE at the end of this document.

INSTRUCTIONS FOR USE

The usage procedure must be carried out according to the User Manual (PN UM-AM-LDR-145) and USER VIDEO MANUAL (PN UVM-AM-LDR-145). To access the updated version of the User Manual and of the User Video Manual, access the link: www.aeromob-industry.com/support-am-ldr-145-k01 or just scan the QRCODE available in this FMS.

REQUIRED MAINTENANCE

The revision plan and any necessary maintenance procedures must be carried out in accordance with the equipment maintenance manual (MM-AM-LDR-145). To access the updated version of the Maintenance Manual, access the link: www.aeromob-industry.com/support-am-ldr-145-k01 or just scan the QRCODE available in this FMS.

SPARE PARTS

The Illustrated Parts Catalog - IPC is the official reference document for ordering spare parts, part number document IPC-AM-LDR-145-K01. To access the updated version of the Illustrated Parts Catalog, access the link: www.aeromob-industry.com/support-am-ldr-145-k01 or just scan the QRCODE available in this FMS.

WARRANTY

Your equipment has a 1 (year) warranty and, if necessary, it can be requested directly from AEROMOB through the link: www.aeromob.com.br/support-am-ldr-145-k01 or by scanning the QRCODE available in this FMS.

ACCESS TO ALL UPDATED DOCUMENTATION

Below is a list of files and documents available to the customer of this equipment and the QRCODE for access to the always up-to-date version:

(PN FMS-AM-LDR-145) FLIGHT MANUAL SUPPLEMENT

(PN UM-AM-LDR-145) USER MANUAL

(PN UVM-AM-LDR-145) USER VIDEO MANUAL
